- Implementation Progress Monitoring

**LEAD**

**APRIL 2021-  
JUNE 2021**

**KEY PBIS Elements**

- Evaluation and Refinement of School Systems

## SUPPORT and THOUGHT PARTNERSHIP

School leaders set the tone of school culture for staff. It can be overwhelming to think about how to troubleshoot and support teacher practice and mindsets. We help action plan and coach school leaders with quality training on how they can be consistent and impactful for years to come by embedding effective change management into the makeup of the school.

Using our TIER ONE PBIS ACTION PLANNING GUIDE as a framework, we can ensure that teachers and students are receiving consistent acknowledgment of best practices to perpetuate the behaviors you would like to see throughout your school building. Request our Leadership Series for an example of how leadership training and development can be structured to mirror school the PBIS action planning.
